United Way accepting donations

Help Somerset County United Way by donating your time and talent to decide how donated dollars will be invested in the community to achieve meaningful results. The entire process is 100-percent volunteer-driven and helps Somerset County United Way maintain accountability by utilizing volunteers to act as stewards of the funds entrusted to the United Way.

Volunteers are trained and then assigned to work in teams to review and assess agencies and programs applying for Somerset County United Way funding. Agencies are evaluated to ensure that they meet Somerset County United Way Standards of Eligibility for fiscal and administrative soundness.

Individual programs within agencies are assessed to assure that services are meeting needs, provided effectively and producing measurable results that improve people's lives. For more information, contact Monica Conover at 908-253-6529 or monica.conover@scuw.org.
